

1. **Aspidoras**
2. **Brochis**
3. **Corydoras group A** - up to 57 mm SL. (females)
4. **Corydoras group B** - over 57 mm SL. (females)
5. **Corydoras Types** – C & CW numbers and unidentified\*
6. **Scleromystax**
7. **AOV Callichthyidae** - Calichthys; Dianema; Hoplosternum; Megalechis; Lepthoplosternum.
8. **Aspredinidae**
9. **Auchenipteridae**
10. **Bagridae.**
11. **Doradidae**
12. **Loricariidae** - Up to 130 mm SL
13. **Loricariidae** - Over 130 mm SL
14. **Loricariidae** - L & LDA numbers up to 130 mm SL[i]
15. **Loricariidae** - L & LDA numbers over 130 MM SL[i]
16. **Mochokidae** - Up to 130 mm SL
17. **Mochokidae** - Over 130 mm SL
18. **Pimelodidae** - Up to 100 mm SL
19. **Pimelodidae** - Over 100 mm SL
20. **AOV Cold water Catfish** [ii]
21. **AOV Catfish** - South American
22. **AOV Catfish** - African
23. **AOV Catfish** - Asian
24. **Pairs** - Corydoradinae
25. **Pairs** - Loricariidae. Including L & LDA numbers
26. **Pairs** - AOV South American
27. **Pairs** - AOV African
28. **Pairs** - AOV Asian
29. **Breeders** - Corydoradinae
30. **Breeders** - Loricariidae, including L & LDA numbers
31. **Breeders** - AOV South American
32. **Breeders** - AOV African
33. **Breeders** - AOV Asian
34. **Family Class** - Pair & Breeders - Adults should be placed in their respective Pairs class and juveniles in their respective Breeders class, the points are added together and then divided by 2.
35. **Breeders Master Class** - 1 entry = 3 separate species of juvenile fish.
  - i. Corydoradinae and Loricariidae species with an L or LDA number that have been described or positively identified should be entered in the named species class.
  - ii. Because of current legislation we can only accept entries for the AOV Cold Water Catfish on production of a current valid licence.
